

Sammamish Park-and-Ride

The Sammamish Park-and-Ride at 228th SE project will build a park-and-ride lot to improve customer access to transit service. In this rapidly growing area where existing park-and-ride lots are full, this project will include 265 new parking stalls with bus loading areas and layover space, bicycle storage facilities and amenities, customer amenities, information kiosks, public art, and unique stormwater treatment facilities.

Sammamish Park-and-Ride project facts...

Location: Intersection of 228th Avenue SE and Issaquah-Pine Lake Road.
